Environmental Impact Assessment Review
23 (2003) 755–763

Environmental Impact Assessment Review

www.elsevier.com/locate/eiar

SUBJECT INDEX FOR VOLUME 23

A

Agricultural technology
An environmental impact assessment system for agricultural R&D, 219

AHP
Environmental quality indexing of large industrial development alternatives using AHP, 283

Aluminum smelter
Environmental quality indexing of large industrial development alternatives using AHP, 283

Analytic hierarchy process
Evaluating a multi-criteria model for hazard assessment in urban design. The Porto Marghera case study, 625

Applications
Strategic environmental assessment methodologies—applications within the energy sector, 91

Australia
Environmental impact assessment including indirect effects—a case study using input–output analysis, 263

B

Bangladesh
Health impact assessment of climate change in Bangladesh, 323

Big picture
Let us make impact assessment more accessible, 141

Biodiversity
Biodiversity Impact Assessment of roads: an approach based on ecosystem rarity, 343

Biodiversity
Accounting for uncertainty factors in biodiversity impact assessment: lessons from a case study, 471

Biodiversity
A generic approach to integrate biodiversity considerations in screening and scoping for EIA, 657

British Columbia
Evaluating the effectiveness of British Columbia's environmental assessment process for first nations' participation in mining development, 581

C

Caspian Sea
The transboundary EIA convention in the context of private sector operations cofinanced by an International Financial Institution: two case studies from Azerbaijan and Turkmenistan, 441

0195-9255/03/$ – see front matter © Elsevier Inc. All rights reserved.
doi:10.1016/S0195-9255(03)00154-9

CBD
A generic approach to integrate biodiversity considerations in screening and scoping for EIA, 657
China
Environmental impact assessment of projects in the People's Republic of China: new law, old problems, 543
Climate change
Health impact assessment of climate change in Bangladesh, 323
Cost–benefit analysis
Multi-criteria decision analysis with probabilistic risk assessment for the management of contaminated ground water, 683
Cumulative effects assessment
Cumulative effect assessment in Canada: a regional framework for aquatic ecosystems, 723

D

DALY
Health impact assessment of climate change in Bangladesh, 323
Decision aid
Implementing the European SEA Directive: the Member States' margin of discretion, 453
Decision analysis
Multi-criteria decision analysis with probabilistic risk assessment for the management of contaminated ground water, 683
Decision-making
Multi-criteria decision analysis with probabilistic risk assessment for the management of contaminated ground water, 683
Decision-making processes
Using knowledge for decision-making purposes in the context of large projects in The Netherlands, 517
Decommissioning
Environmental impact assessment and the decommissioning of nuclear power plants—a review and suggestion for a best practicable approach, 197
Democratization
Conflicts in developing countries: a case study from Rio de Janeiro, 489
Developing country
Environmental impact assessment in the Fijian state sector, 73
Developing country
Conflicts in developing countries: a case study from Rio de Janeiro, 489
Development projects
Environmental impact assessment of projects in the People's Republic of China: new law, old problems, 543
Directive 2001/42/EC
Implementing the European SEA Directive: the Member States' margin of discretion, 453
Disability-adjusted life year
Health impact assessment of climate change in Bangladesh, 323

Discretionary margin
Implementing the European SEA Directive: the Member States' margin of discretion, 453

E

EBRD
The transboundary EIA convention in the context of private sector operations co-financed by an International Financial Institution: two case studies from Azerbaijan and Turkmenistan, 441

Eco-costs
A proposed tool to integrate environmental and economical assessments of products, 51

Ecosystem
Biodiversity Impact Assessment of roads: an approach based on ecosystem rarity, 343

Ecosystem
Accounting for uncertainty factors in biodiversity impact assessment: lessons from a case study, 471

Education
Environmental impact assessment of projects in the People's Republic of China: new law, old problems, 543

EIA
A generic approach to integrate biodiversity considerations in screening and scoping for EIA, 657

Energy sector
Strategic environmental assessment methodologies—applications within the energy sector, 91

Environment
Environmental quality indexing of large industrial development alternatives using AHP, 283

Environmental approvals
Is environmental impact assessment regulation a 'burden' to private firms?, 383

Environmental assessment process
Evaluating the effectiveness of British Columbia's environmental assessment process for first nations' participation in mining development, 581

Environmental awareness
The need for subjectivity in EIA: discourse as a tool for sustainable development, 401

Environmental conflict
Conflicts in developing countries: a case study from Rio de Janeiro, 489

Environmental impact assessment
Noise and newts: public engagement in the UK and Sweden, 17

Environmental impact assessment
Strategic environmental assessment in post-modern times, 155

Environmental impact assessment
Environmental impact assessment and the decommissioning of nuclear power plants—a review and suggestion for a best practicable approach, 197

Environmental impact assessment
An environmental impact assessment system for agricultural R&D, 219

Environmental impact assessment
Environmental impact assessment including indirect effects—a case study using input–output analysis, 263

Environmental impact assessment
Is environmental impact assessment regulation a 'burden' to private firms?, 383
Environmental impact assessment
The need for subjectivity in EIA: discourse as a tool for sustainable development, 401
Environmental impact assessment
Reform of the EIA process in Indonesia: improving the role of public involvement, 415
Environmental impact assessment
Cumulative effect assessment in Canada: a regional framework for aquatic ecosystems, 723
Environmental impact assessment (EIA)
Environmental impact assessment of projects in the People's Republic of China: new law, old problems, 543
Environmental impact assessment procedures
Environmental impact assessment in the Fijian state sector, 73
Environmental legislation
Environmental impact assessment in the Fijian state sector, 73
Environmental management
Conflicts in developing countries: a case study from Rio de Janeiro, 489
Environmental monitoring
Cumulative effect assessment in Canada: a regional framework for aquatic ecosystems, 723
Environmental planning
Cumulative effect assessment in Canada: a regional framework for aquatic ecosystems, 723
Environmental protection
Environmental impact assessment of projects in the People's Republic of China: new law, old problems, 543
Environmental regulation and firms
Is environmental impact assessment regulation a 'burden' to private firms?, 383
Environment impact assessment
Divergent practice in a converging system? The case of EIA in France and the UK, 605
Environment planning
Multi-criteria decision analysis with probabilistic risk assessment for the management of contaminated ground water, 683
Espoo Convention
The transboundary EIA convention in the context of private sector operations co-financed by an International Financial Institution: two case studies from Azerbaijan and Turkmenistan, 441
European Union
Environmental impact assessment and the decommissioning of nuclear power plants—a review and suggestion for a best practicable approach, 197

F

Fiji
Environmental impact assessment in the Fijian state sector, 73
First Nations
Evaluating the effectiveness of British Columbia's environmental assessment process for first nations' participation in mining development, 581

France
Divergent practice in a converging system? The case of EIA in France and the UK, 605

G

Ground water
Multi-criteria decision analysis with probabilistic risk assessment for the management of contaminated ground water, 683

H

Hazard
Evaluating a multi-criteria model for hazard assessment in urban design. The Porto Marghera case study, 625

Health
Spirituality and health: an initial proposal to incorporate spiritual health in health impact assessment, 3

Health impact assessment
Spirituality and health: an initial proposal to incorporate spiritual health in health impact assessment, 3

Health impact assessment
Health impact assessment of climate change in Bangladesh, 323

High-speed train
A simple model to predict train-induced vibration: theoretical formulation and experimental validation, 305

History
Environmental impact assessment of projects in the People's Republic of China: new law, old problems, 543

I

IFI
The transboundary EIA convention in the context of private sector operations co-financed by an International Financial Institution: two case studies from Azerbaijan and Turkmenistan, 441

Impact
Biodiversity Impact Assessment of roads: an approach based on ecosystem rarity, 343

Impact
Accounting for uncertainty factors in biodiversity impact assessment: lessons from a case study, 471

Impact assessments
Using knowledge for decision-making purposes in the context of large projects in The Netherlands, 517

Implementation
Let us make impact assessment more accessible, 141

Indirect effects
Environmental impact assessment including indirect effects—a case study using input–output analysis, 263

Indonesia
Reform of the EIA process in Indonesia: improving the role of public involvement, 415

Input–output analysis
Environmental impact assessment including indirect effects—a case study using input–output analysis, 263

Institutional arrangements
Environmental impact assessment of projects in the People's

Republic of China: new law, old problems, 543

Issues
Environmental impact assessment of projects in the People's Republic of China: new law, old problems, 543

L

Legislation
Environmental impact assessment of projects in the People's Republic of China: new law, old problems, 543

Legislation and practice
Divergent practice in a converging system? The case of EIA in France and the UK, 605

Life cycle assessment (LCA)
A proposed tool to integrate environmental and economical assessments of products, 51

Life cycle cost analysis (LCCA)
A proposed tool to integrate environmental and economical assessments of products, 51

Life cycle costing (LCC)
A proposed tool to integrate environmental and economical assessments of products, 51

Life cycle environmental cost analysis (LCECA)
A proposed tool to integrate environmental and economical assessments of products, 51

Life expectancy
Health impact assessment of climate change in Bangladesh, 323

Local environment
Conflicts in developing countries: a case study from Rio de Janeiro, 489

Long-term
Let us make impact assessment more accessible, 141

M

Major accident
Evaluating a multi-criteria model for hazard assessment in urban design. The Porto Marghera case study, 625

Multi-actor decision-making
Using knowledge for decision-making purposes in the context of large projects in The Netherlands, 517

Multi-criteria model
Evaluating a multi-criteria model for hazard assessment in urban design. The Porto Marghera case study, 625

N

Negotiated knowledge
Using knowledge for decision-making purposes in the context of large projects in The Netherlands, 517

Noise annoyance
A survey of urban noise annoyance in a large Brazilian city: the importance of a subjective analysis in conjunction with an objective analysis, 245

Nuclear power plants
Environmental impact assessment and the decommissioning of nuclear power plants—a review and suggestion for a best practicable approach, 197

O

Oil refinery
Environmental quality indexing of large industrial develop-

ment alternatives using AHP, 283
Operational issues
Implementing the European SEA Directive: the Member States' margin of discretion, 453

P

Planning
Let us make impact assessment more accessible, 141
Policy-level
Let us make impact assessment more accessible, 141
Policy-related research
Using knowledge for decision-making purposes in the context of large projects in The Netherlands, 517
Post-modern times
Strategic environmental assessment in post-modern times, 155
Procedures
Environmental impact assessment of projects in the People's Republic of China: new law, old problems, 543
Project appraisal
An environmental impact assessment system for agricultural R&D, 219
Public involvement
A participatory approach to social impact assessment: the interactive community forum, 367
Public involvement
Reform of the EIA process in Indonesia: improving the role of public involvement, 415
Public involvement
Environmental impact assessment of projects in the People's Republic of China: new law, old problems, 543
Public judgment
A participatory approach to social impact assessment: the interactive community forum, 367
Public participation
Noise and newts: public engagement in the UK and Sweden, 17
Public participation
Environmental impact assessment and the decommissioning of nuclear power plants—a review and suggestion for a best practicable approach, 197

R

Rarity
Biodiversity Impact Assessment of roads: an approach based on ecosystem rarity, 343
Rayleigh waves
A simple model to predict train-induced vibration: theoretical formulation and experimental validation, 305
Remediation
Multi-criteria decision analysis with probabilistic risk assessment for the management of contaminated ground water, 683
Risk
Evaluating a multi-criteria model for hazard assessment in urban design. The Porto Marghera case study, 625
Risk assessment
Multi-criteria decision analysis with probabilistic risk assessment for the management of contaminated ground water, 683

Road
Biodiversity Impact Assessment of roads: an approach based on ecosystem rarity, 343

S

Scenario development
Expanding the scoping community, 39
Scenario elements
Expanding the scoping community, 39
Scoping
Expanding the scoping community, 39
Scoping
A generic approach to integrate biodiversity considerations in screening and scoping for EIA, 657
Screening
A generic approach to integrate biodiversity considerations in screening and scoping for EIA, 657
Sensitivity
Accounting for uncertainty factors in biodiversity impact assessment: lessons from a case study, 471
Settlement of disputes
Conflicts in developing countries: a case study from Rio de Janeiro, 489
Short-term
Let us make impact assessment more accessible, 141
Small group processes
A participatory approach to social impact assessment: the interactive community forum, 367
Social assessment
Let us make impact assessment more accessible, 141
Social factors
Let us make impact assessment more accessible, 141
Social impact assessment
A participatory approach to social impact assessment: the interactive community forum, 367
Society and the environment
Conflicts in developing countries: a case study from Rio de Janeiro, 489
South Pacific
Environmental impact assessment in the Fijian state sector, 73
Space occupation
Biodiversity Impact Assessment of roads: an approach based on ecosystem rarity, 343
Spirituality
Spirituality and health: an initial proposal to incorporate spiritual health in health impact assessment, 3
State environmental management
Environmental impact assessment in the Fijian state sector, 73
Strategic environmental assessment
Strategic environmental assessment methodologies—applications within the energy sector, 91
Strategic environmental assessment
Strategic environmental assessment in post-modern times, 155
Strategic environmental assessment
Implementing the European SEA Directive: the Member States' margin of discretion, 453

Strategic environmental assessment
Environmental impact assessment of projects in the People's Republic of China: new law, old problems, 543
Subjective annoyance
A survey of urban noise annoyance in a large Brazilian city: the importance of a subjective analysis in conjunction with an objective analysis, 245
Subjectivity
The need for subjectivity in EIA: discourse as a tool for sustainable development, 401
Sustainability
An environmental impact assessment system for agricultural R&D, 219
Sustainable development
Cumulative effect assessment in Canada: a regional framework for aquatic ecosystems, 723
Sweden
Noise and newts: public engagement in the UK and Sweden, 17

T

Transboundary EIA
The transboundary EIA convention in the context of private sector operations co-financed by an International Financial Institution: two case studies from Azerbaijan and Turkmenistan, 441

U

UK
Noise and newts: public engagement in the UK and Sweden, 17
UK and EU comparison
Divergent practice in a converging system? The case of EIA in France and the UK, 605
Uncertainty
Accounting for uncertainty factors in biodiversity impact assessment: lessons from a case study, 471
Urban noise
A survey of urban noise annoyance in a large Brazilian city: the importance of a subjective analysis in conjunction with an objective analysis, 245

V

Vibration prediction
A simple model to predict train-induced vibration: theoretical formulation and experimental validation, 305
